Spa

Since the dawn of evolution, food consumption was an instinct around which life was evolving. Our ancestors needed energy to survive, and all the animals they were looking towards for food, reproduced in circles. They craved sweet food as it is the greatest source of energy, but it was challenging to find. Born to move, our body is built as the perfect machine to run, jump, crawl and swim. At Maikhao Dream Hotels & Resort, we have spent 25 years in search for answers and found them in the concept of what we refer to Believe in Yourself. It is based on very simple set of rules that we have identified based on historical data and made going back to the roots, integrated with modern lifestyle demands, and balanced the perfect fusion of Nutrition, Physical Activities and Spiritual harmony.

Maikhao Dream Spa offers three distinct wellness programs; Detoxification, Anti-Stress and Weight Management. All of these can be experienced through Thai, Contemporary or Ayurvedic Discipline.
